Village Development Platform — Relational Schema

Relational design for Community Services, Personal Services, and Agriculture

PK primary key FK foreign key UK unique constraint ——— Arrow points from the FK to its referenced PK

Blue relationship arrows show foreign-key references. This is a proposed schema, not a database migration.

USERS

PK	id
	full_name
UK	email
UK	phone
	password_hash

citizen_id

01 COMMUNITY SERVICES

citizens · complaints · evidence · status history · comments · notifications

DEPARTMENTS

PK	id
UK	name
	description · contact_details

predicted

assigned

COMPLAINTS

PK	id
FK	citizen_id → users.id
	title
	description
FK	predicted_department_id
FK	assigned_department_id
	ml_confidence
	status
	priority
	location
	latitude · longitude
	village
	created_at · updated_at

COMPLAINT_COMMENTS

PK	id
FK	complaint_id
FK	author_id → users.id
	message · created_at

COMPLAINT_EVIDENCE

PK	id
FK	complaint_id
	file_url · file_type
	uploaded_at

NOTIFICATIONS

PK	id
FK	user_id → users.id
FK	complaint_id
	message
	is_read · created_at

COMPLAINT_STATUS_HISTORY

PK	id
FK	complaint_id
FK	changed_by → users.id
	old_status · new_status
	note
	changed_at

02 PERSONAL SERVICES

provider profiles · service requests · reviews

SERVICE_PROVIDERS

PK		id
FK	UK	user_id
		service_type · description
		latitude · longitude
		is_available

SERVICE_REQUESTS

PK	id
FK	provider_id
FK	requester_id → users.id
	description · service_location
	status
	response_note
	requested_at · updated_at

REVIEWS

PK	id
FK	provider_id
FK	reviewer_id → users.id
	rating · comment
	created_at

03 AGRICULTURE

shops · shared product catalog · per-shop inventory · farmer requests

SHOPS

PK	id
FK	owner_id → users.id
	name · address · phone
	latitude · longitude
	is_active

PRODUCTS

PK	id
	name · category · brand
	unit

SHOP_INVENTORY

PK	id
FK	shop_id
FK	product_id
UK	(shop_id, product_id)
	quantity_available · price
	availability_status
	last_updated

PRODUCT_REQUESTS

PK	id
FK	inventory_id
FK	farmer_id → users.id
	quantity · status
	batch_id · created_at

Design proposal based on the supplied reference schema and the implemented Community, Personal Services, and Agriculture features.
